ABOUT ME

I am a self-taught frontend developer and designer. I initially earned a master's degree in Industrial Management and Engineering. During my studies, I started working in graphic design with prospective clients. Due to my interest and a constant drive to improve, I immersed myself in frontend development.

WORK EXPERIENCE

VegalT Novi Sad

February 2023 - now

Doctor care anywhere

Doctor Care Anywhere Group PLC is the UK's largest private provider of telehealth services.

- Tech Stack: React, TypeScript, Git, Microfrontends
- I integrated CIMAR MRI scans into our app
- Reviewed pull requests, participated in pair programming,
- Implemented frontend logic that was integrated with our backend and various third-party APIs
- Wrote unit tests using Jest
- Agile methodology

HR tool

I worked on an internal HR tool

- The tech stack included React, TypeScript, WebSockets, Material UI, React Query, and Git
- Implemented frontend logic
- Implemented token-based authentication for secure access to user accounts and role-based rendering
- Worked through various browser compatibility issues
- Integrated with a WebSocket service and implemented event handling

Internship

During my internship at Vega IT, I developed an expense tracker SPA. The frontend was built using TypeScript and React, while the backend was built using Spring Boot and Java.

- Implemented the frontend authentication flow, including token-based authentication for secure access to user accounts
- Implement frontend logic
- Implemented responsive design
- Filtering and sorting options for quick access to specific expenses
- Intuitive design for easy navigation and usability

Graphic designer

Freelance / 1-1 projects / Project manager

December 2014 - now

Project managing and delivering over 150 completed projects for abroad and domestic clients (Websites, Logos, Branding, Flyers, Brochures, Icons, Business Cards, Brand Guides, et.)

PROJECTS

- **EASY CABIN** is app where you can rent cabins, make reservations and much more. Built with [React Query](#) and [Supabase](#).
- **FURNI HAVEN** E-commerce app integrating [Auth0](#) login, [Stripe](#) payments. Filters enable easy product search by manufacturer, color, price, category. Cart for simple checkout. Built with React. Secure, efficient, and user-friendly.
- **F1 STATS TRACK** React-based Formula 1 app: Explore the history of races, drivers, and teams since 1950. Browse, search, and discover insights. MIT License.
- **DEDIN SALAS** Working on exciting frontend design and responsiveness for a restaurant website, creating an user-friendly digital experience.
- **CRYPTOPALL** is a cryptocurrency management platform that allows users to buy, track, and manage their own crypto assets. Each user can log in to their account, view trending cryptocurrencies, and purchase or sell desired coins. Developed by React and TS
